

Women in Technology Summit 2018

Drop by the shore, experience the sea mist,
improvise, adapt and overcome at the Women in Technology Summit!
Dec 21 - 24, 2018 | NITK Surathkal

Redefining the Defined

The Women in Technology (WiT) Summit aims to embolden delegates who are currently in the STEM fields to make a change in the community by lending enthusiasm and inspiration from successful women leaders. WiT Summit aims to be a journey into self-discovery and empowerment. A place for participants to discover their hidden talents and spark their technical innovations. It will be an experience like no other, combining the best of IEEE and the Industry network, with some amazing learning and truly fun events that will make the most memorable events so far.

To make an energetic group of Women and Men, utilizing their assorted gifts to improve for the advantage of humankind.

OUR TRACKS:

The tracks are as follows:

- Computing: Workshops, talks and engaging sessions to bring forth budding computing enthusiasts.:
- Electronics and Automation: Workshops, talks and engaging sessions to embolden the ones who wish to change the world using knowledge of electronics.
- Entrepreneurship: Skills to help women advance in their careers, Skills to elevate the actions to inspire others, communicate and effective leading, skills around startups, business models, venture funding, finance or leadership communication.

Why Partner With Us

IEEE is a globally trusted brand. Partnering with us gives you access to extensive networks in important global markets and expertise in international science and technology programmes, moreover enabling you to be a part of an enormous community of young, enthusiastic and innovational minds - a set of traits that only adds up to success and prosperity of both parties.

Women in Technology Summit aids in opening wide the doors of advertising to your companies, brands, technologies and services to a flock of eager student members and efficient young professionals. Usage of your resources by the delegates will result in extensive exposure of your brands even up to an international repute. According to the degrees of sponsorship, marketing witnessed by the entire IEEE global community, will be done in social media, certificates, printed materials and even attached along with the registration kits!
